www.aquacomfort.com

AquaComfort is the most efficient and economical solution to heat your pool

The 21st Century Solution To Heat Your Pool

Features Comparison	AquaComfort	Gas Heater
Operating Cost	Low Cost	Nearly 4 times more costly than AquaComfort
Loss of Efficiency	No loss of efficiency over time	Loses 30-50% efficiency in 3 years or less
Life Expectancy	10-12+ years	5-6 years
Heat Exchanger Technology	Titanium with lifetime warranty	Copper; corrodes when water isn't balanced
Environmental Effect	Zero CO2 emissions	Gives off up to 25,000 pounds of CO2 annually
Pool Cooling	Heat/cool models can cool the pool when the water gets too hot	Can't cool the pool; needs a separate cooling unit

The Difference is in the Technology

AquaComfort combines its legendary low temperature performance with “best in industry” performance over the widest range of weather conditions

SET IT AND FORGET TECHNOLOGY

Maintains your pool water at the perfect temperature all day, every day of the pool season.

MORE HEAT

With AquaComfort’s exclusive low temperature performance, you get 30-40% more heat, than competitive heat pumps, when you need it most, early and late in the season, when nighttime temperatures are cooler.

STRONGEST WARRANTY

You get the longest and most complete warranty in the industry with AquaComfort’s national support network.

EXCEPTIONAL SERVICE AND SUPPORT

We give the best warranty because you get the most reliable pool heater. However, should a problem occur we're ready to help find a solution and make things right quickly and effectively. Help is just a phone call or click away.

407-307-1252

www.aquacomfort.com

AquaComfort heat pumps are the result of over 30 years of experience and product innovation. More than 100,000 pool owners across America get the most pleasure from their pools by heating with AquaComfort.

First in the industry with micro-computer controls, titanium heat exchangers, whisper quiet fan technology and now evaporator water shedding technology, AquaComfort offers a precision package that lasts longer while maintaining industry leading performance and efficiency year after year after year.
